

CREAFORM PORTABLE WORKSTATION

Today's production and field environments need portable dimensional inspection solutions that offer the same accuracy, reliability and repeatability as measurement technologies found in metrology labs. Benefit from our 3D scanners' flexibility with Creaform's portable workstation for easy 3D scanning on the shop floor or out in the field.

MAXIMUM PORTABILITY

- All-in-one carrying case
- Can include a scanner, a computer and all accessories
- Multi-terrain wheels
- Additional storage space

ADAPTED WORKSTATION

- Quick setup and connection
- Easy calibration
- Comfortable working height
- Compatible with HandySCAN 3D™ and Go!SCAN 3D™

FIELD ENVIRONMENTS

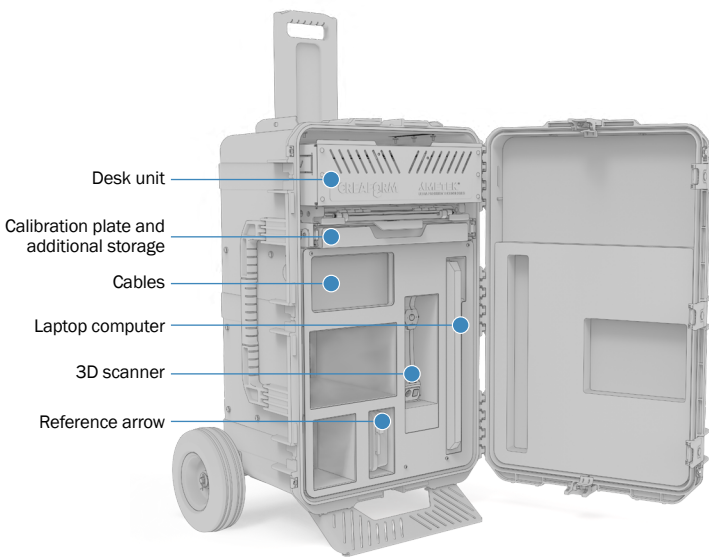

Field crews from all NDT industries can now benefit from a completely portable and robust solution for pipeline, plant, or refinery integrity assessment and aircraft maintenance.

SHOP-FLOOR ENVIRONMENTS

Creaform's portable workstation allows quality control teams of all skill levels to inspect parts at any stage of the production process—right on the shop floor. Greatly facilitating the setup of a portable 3D scanner anywhere in a manufacturing environment, this workstation is a powerhouse to help you improve your quality control efficiency and performance.
